

SHEEP-IN-A-BOX™

Sheep & Wool Education Kit for Homeschoolers

EVERYTHING needed to teach about sheep and wool!

- An entire raw fleece (right off the sheep!)
- Pocket Guide to Washing Wool
- Wonderful Wool flip chart
- Craft-ready wool roving
- Lesson plans and hands-on activities with supplies
- Dyeing, felting, weaving and other fiber craft instructions
- Children's book, "A Lamb's Tale"
- Samples of remarkably different types of wool
- Ideal for families, groups of friends, co-ops, youth groups, etc.

The Story of Sheep-In-A-Box

As an Agriculture teacher turned Shepherd and Mom, Caroline Owens knew that with the right support material, a sheep's fleece would be a powerful hands-on teaching tool integrating art with science and history. She created a kit for local homeschool families, and the idea caught on.

Sheep-in-a-Box™

Sheep & Wool Education Kit for homeschoolers

\$84.00

shipping available to the 48 lower states

DESCRIPTION	QTY	UNIT PRICE	TOTAL
Sheep-In-A-Box for homeschoolers			
Extra roving? (see note)			
Video? (optional—see note below)			
		Shipping & handling (below)	
		TOTAL	

Roving note: Standard kit includes 4 oz of roving (cleaned, carded wool for felting and spinning), enough for several introductory projects. Extra 4 oz bags may be ordered for \$12 each. Shipping free if ordered at the same time as the kit.

Video note: The video you see in the photograph is called "From Farm to Fiber, Naturally", a 10-minute production for children produced by the American Sheep Industry Association. It does an excellent job of picturing the steps in processing wool. We do not include it in the standard kit because that would drive the price up for everyone, but we are happy to provide a video for \$12 additional to those who want it.
